ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

APUT WORKSHOP

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Entrepreneurship is a process of designing, launching and running a new business which is often initially a small business. The people who create these businesses are called entrepreneurs.

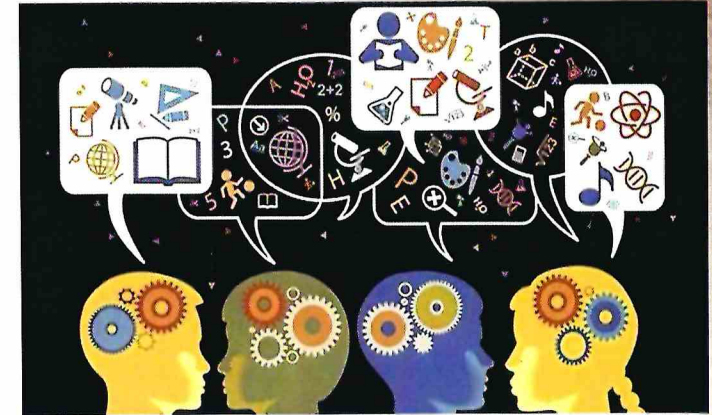

OBJECTIVE OF THE PROGRAM:

- Enhance the thinking power of students in various ways to become an entrepreneur.
- Students will understand the development of entrepreneurial thinking

OUTCOME OF THE PROGRAM:

- Get self employability skills
- Improve the ability to resolve personality development.
- To think more creatively to maintain team work in more creative way.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

AI)UT WORKSHOP

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

The hands and training program in analytical instrumentation has been designed with the aim to provide conceptual basic and hands on practical exposure of instruments for thorough understanding of analytical instruments and methods Instrumental analysis is being used in several chemical process industries. Like pharmaceutical industry and in analytical laboratories'.

OBJECTIVE OF THE PROGRAM:

- The hands on training program in analytical instrumentation have been designed.
- It helps to provide conceptual basic and hands on practical exposure of instruments.

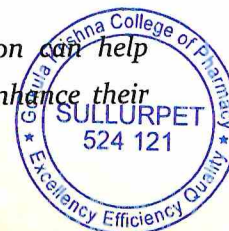

The training in scientific instrumentation can help students gain instrumentation skills and enhance their employment prospects.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

The fundamental concepts of Essential statistics in research is to develop the mode of students with a research bent of mind for careful planning, preparation and execution of data and enable them to analyze both designing a pharmaceutical expert and evaluating its results.

OBJECTIVE OF THE PROGRAM:

- The students should recognize varies statistical methods to solve different problems.
- Students learn general research methodology and the basic concepts of biostatistics.
- Attending such seminars enables and enhances the overview of students towards basic elements associated

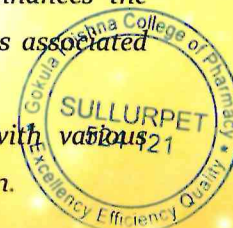

Dr. BALAGANI PAVAN KUMAR
M. Pharm, Ph D, FJC, FBSS, FAGE, FICCP, MISTE
Professors & get NCPA opportunity to work with various
GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET
examples using excel throughout the program.

OUTCOME OF THE PROGRAM:

Students learnt various statistical methods to solve different types of problem.

- Students identify the process of designing a research study from its inception.
- Students get familiarized to write good introduction and content on educational research study and analyze data based on the use of appropriate statistical software.
- Students are imparted the methods and techniques to use the pharmaceutical date based on computer generated results.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Intellectual Property Rights (IPRs) are the rights associated with intangible property owned by a person/company and protected against use without consent. Thus, rights relating to ownership of intellectual property are called Intellectual Property Rights.

Intellectual property (IP) is a property that arises from the human intellect. It is a product of human creation.

Intellectual property (IP) is a category of property that includes intangible creations of the human intellect. The best-known types are patents, copyrights, trademarks, and trade secrets. The main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods for consumers. These rights aim to protect intellectual property (creations of human intellect) by allowing the creators of trademarks, patents, or copyrighted works to benefit from their creations.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence.

The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

AI OUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Experimental pharmacology which involves the identification and optimization of novel chemical lead structures and testing them on animals and animal tissues, or organs for their biological actions.

Clinical pharmacology where testing of drugs is done on human volunteers and patients for assessing the pharmacokinetics, safety and efficacy in humans.

OBJECTIVE OF THE PROGRAM:

- This seminar is aimed to provide solid knowledge to the students on the basic concept of pharmacology which forms the basis for making clinical decisions in pharmacological management of commonly occurring health problems during clinical practice of drug.

Dr. BALAGANI PAVAN KUMAR
M. Pharm, Ph.D, FIC, FBSS, FAGE, FICCP, MISTE
PROFESSOR & PRINCIPAL
GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, TIRUPATI Dt. A.P - 524121

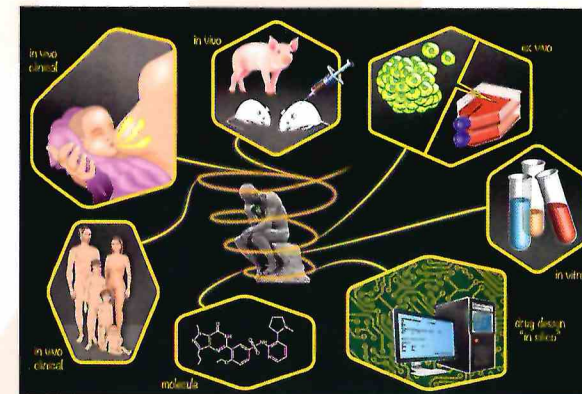

OUTCOME OF THE PROGRAM:

On completion of the program students could be able to

- Describe the role of clinical pharmacology
- Explain the importance of analysis of exposure- response relationship

Promote the safety of prescription, maximize the drug effects and minimize the side effects.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

AI OUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Research is a difficulty vocation in which the goals to discover truths through scientific and systematic inquiry. The research ultimate goal is to seek information, generate new knowledge, and propose practical solution to the difficulties that the human race faces.

OBJECTIVE OF THE PROGRAM:

- . This seminar gives knowledge to make decision for research methods in pharmacy and health science
- . Students will learn the structures and concept of common study designs of research methods in pharmacy and health sciences
- . It helps to make the students keep up with the latest development in health science.

The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

AI OUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Clinical pharmacist are responsible and accountable for medication therapy and patient outcomes.

Clinical pharmacists are the primary source in the valid scientific information on the safety, appropriateness and cost effective use of medication.

In clinical research, pharmacist plays a vital role to ensure that the pharmaceuticals are administered effectively and where the safety, of patient's safety lies important.

OBJECTIVE OF THE PROGRAM:

- It helps to recognize untreated health conditions that could be managed with medication therapy.
- It helps the students on advising patients about the best way to take medications.
- To convert the study findings in to better patient's care.

Dr. BALAGANI PAVAN KUMAR
M. Pharm, Ph.D, FIC, FBSS, FAGE, FICCP, MISTE
PROFESSOR & PRINCIPAL
GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, TIRUPATI Dt. A.P - 524121

OUTCOME OF THE PROGRAM:

- The students can interpret the information on available data based on laboratory tests, after and gather other related information from the patient as well as their medical record to give the best medical treatment, care and assurance.
- After learning all the information about the patient by utilizing data and analyzing trends on latest medical and technical innovations, students can identify the areas of improvement, and target the impediments to cure and improve the health of the patient best performance.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience. Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants. Seminar is simply together for the discussion and learning of specific techniques and topics.

Entrepreneurship is a process of designing, launching and running a new business which is often initially a small business.

Entrepreneurship is a process through which individuals identify opportunities, allocate resources and create value, also plays a pivotal role in economic development.

The employability and entrepreneurship skills equip the students with the skills needed in a global arena.

Students are consistently encouraged to take up domain specific skill training programmers to acquire hands on experience.

OBJECTIVE OF THE PROGRAM:

- Pharmaceutical management, it includes new business start ups, job creation contributing to economic growth, and development

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ADU T SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

" is aimed in understanding the fundamental concepts of developing research bent of mind by careful planning, execution, collection of data and analyzing for statistical significance. Research is a part of execution of an idea developed. Biostatistics has an important role in both designing a pharmaceutical experiment and evaluating its results.

OBJECTIVE OF THE PROGRAM:

- The aim of pharmacovigilance program for the students to gain knowledge in making decisions for pharmacovigilance program of India emerging trends in research.

- The students learn to collect and analyze drug related adverse events and focus on drug safety monitoring

program.
The students benefit to identify and analyze new signals from respective cases

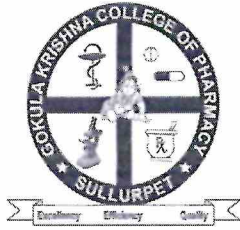

Dr. BALAGANI PAVAN KUMAR
M. Pharm
PROFESSOR & PRINCIPAL
GOKUL KRISHNA COLLEGE OF PHARMACY
SULLURPET, TIRUPATI Dt. A.P - 524121

OUTCOME OF THE PROGRAM:

- Attending pharmacovigilance program seminar helped students to be aware of their interests, analyze the benefit risk ratio of marketed medicines.
- Students could prepare a lot of documents, reports on Adverse drug reaction.
- Analyze the different type of data using appropriate statistical software
