ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

OBJECTIVE OF THE PROGRAM:

- Main agenda is students understand the current regulations involved with the clinical research process.
- Understand the phases and components of the clinical research process.
- Understands the importance of drug development process.

OUTCOME OF THE PROGRAM:

- Students should learn the drug discovery is based on mechanism of disease.
- Pre clinical studies are help to prove the efficacy of the drugs.
- Analyze the different type of data using appropriate statistical software

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

- Self confidence is a essential for building a successful business.
- It enables entrepreneurs to make confidence and decisive decision, trust their instincts, effectively analyze situations, and take calculated risks
- Self confidence gives entrepreneurs the courage to take risks and make bold decision, while also providing the resilience to preserve through challenging times.
- To build self-confidence, entrepreneurs can reflect for self-awareness, compliment and reward themselves, work on their fears and weaknesses, set goals outside of their comfort zone, join groups and clubs, attend learning events and expand their knowledge, and find a mentor.

 - The main objective of the program is to bring awareness and deliberately practice skills and disciplines necessary to increase confidence in the students to make them as entrepreneur.
- Outcome of the Program** :
 - The seminar is could able to enhance self confidence and self esteem in the students which are two of the most important trails for entrepreneurs,
 - Student could feel good about themselves tend to be more resilient and adaptable, qualities that are essential for anyone in business,

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Research may be very broadly defined as systematic gathering of data and information and its analysis for advancement of knowledge in any subject. Research attempts to find answer intellectual and practical questions through application of systematic methods.

Pharmaceutical analysis is sued to determine the purity, safety and quality of drugs and chemicals. Now a day's analytical techniques are majorly used for separation. Chromatography and spectroscopic techniques may be utilized as instrumental methods for sample separation, identification, and detection. Modern pharmaceutical analytical techniques are UV/VIS Spectrophotometer, HPLC, UPLC, NMR, LC-MS, GC-MS etc.,

Narayana

Dr. BALAGANI PAVAN KUMAR
M.Pharm, Ph.D, FIC, FBSS, FACE, FICCP, MISTE
PROFESSOR & PRINCIPAL
GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, SPSR NELLORE DT., A.P-524121

OBJECTIVE OF THE PROGRAM:

- Ensuring the safety, efficacy, and quality of pharmaceutical products.
- Role of analytical instrumentation and analytical methods in pharmaceutical drug determination.
- Advanced Analytical techniques in current research.

OUTCOME OF THE PROGRAM:

- Technologies are available to challenge this paradigm in the area of focused compound synthesis, storage and handling of compounds.
- Analytical techniques are quite essential for predictive toxicology of nano materials.
- Process analytical techniques have been applied for designing, analyzing and controlling various processes functional during product manufacturing.

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

According to ICH, Clinical research is any investigation in human subjects intended to discover or verify the clinical, pharmacological and other pharmacodynamic effect of an investigational product and to identify any adverse reactions to an investigational product, and to study absorption, distribution, metabolism and excretion of an investigational product with the same object of ascertaining its safety and efficacy.

Bioavailability is referred as the fraction of administered drug that reaches the systemic circulation.

Bioequivalence is the absence of a significant difference in the rate and extent to which the moiety in pharmaceutical equivalents or alternatives becomes available at the site of drug action when administered at the same molar dose

under similar condition

Dr. BALAGANI PAVAN KUMAR
M.Pharm, Ph.D, FIC, FBSS, FACE, FICCP, MISTE
PROFESSOR & PRINCIPAL
GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, SPSR NELLORE DT., A.P-524121

OBJECTIVE OF THE PROGRAM:

- How to establish equivalence between early & late clinical trial.
- Development of new drug formulations of existing drugs
- Understands the importance of Bio availability and Bio equivalence studies.

OUTCOME OF THE PROGRAM:

- Compare the bioavailability of generic drug product to the brand name product.
- Understood the ethical committee guidelines and protocol.
- Analyze the different types of clinical research trails in BA/BE Studies.

Objective of the Program : Objective of this seminar is to give knowledge on

- Bioavailability studies and types of Bioequivalence
- Bioequivalence study design protocol.
- IVIVC correlation.
- How to establish equivalence between early & late clinical trial.

Outcome of the Program : Students can able to

- Describe methods to enhance the dissolution rates and bioavailability of poorly soluble drugs.
- Compare the bioavailability of generic drug product to the brand name product.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

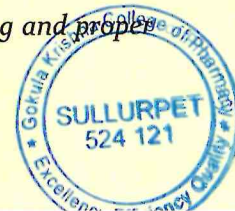

The Research design refers to the overall strategy (or) plan for conducting a research study.

It outlines the methods and procedures that will be used to collect and analyze data, as well as the goals and objectives of the study. It also helps to guide the entire research process and ensures that the study is conducted in a systematic and rigorous manner.

OBJECTIVE OF THE PROGRAM:

- The aim is to provide a clear and concise plan to the students on
- Maximizing the accuracy and reliability of the research findings
- Minimizing the possibility of errors, biases in research.
- To provide an idea of good scientific writing and proper presentation

DR. BALAGANI PAVAN KUMAR
M Pharm Ph D. FIC. FBSS. FACE. FICCP. MISTE
PROFESSOR & PRINCIPAL
GOKULA KRISHNA COLLEGE OF PHARMACY

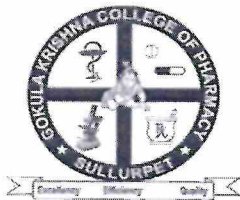

OUTCOME OF THE PROGRAM:

This seminar helps to enable the students to

- Perform an accurate and reliable research methodology and applying them in research/ project work.
- Enables them to collect the data, edit it properly and analyze it.
- Can independently carry out research /investigation and development to solve practical problems

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societty. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Research Methodology is the way to solve a research problem in a systematic manner it describes the techniques and procedures used to identify and analyze information regarding a specific research topic It includes all the important aspects of research, including research design, data collection methods, data analysis methods, and the overall framework within which the research is conducted.

OBJECTIVE OF THE PROGRAM:

Helps to improve the methodological and writing skills of the students and to develop their potential in future academic.

To educate the participants on the use of statistical tech

in data analysis

Dr. BALAGANI PAVAN KUMAR

M Pharm Ph D FRCPTM FRCGP FRCGD MSc
Learn the general basic concepts of biostatistics.

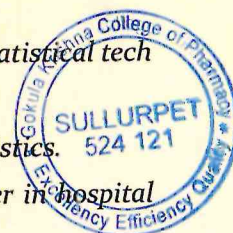

PROFESSOR & PRINCIPAL
GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, SP
To understand the importance of computer in hospital and social science researchers.

OUTCOME OF THE PROGRAM:

From this seminar the students could able to

- Explain about the research and methodology.
- Develop logical and systematic thinking.
- Define techniques and tools used to collect ,process and analyze data regarding the research topic
- Provide a systematic structure to process the whole research

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT WORKSHOP

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Entrepreneurship is the art of turning a good idea into a successful business despite all the obstacles in your way.

Entrepreneurship is a process through which individuals identify opportunities, allocate resources and create value, also plays a pivotal role in economic development

OBJECTIVE OF THE PROGRAM:

- To enhance the understanding of the entrepreneurial opportunities and challenges in pharmaceutical sector.
- To explain concepts of entrepreneurship and build an understanding about business situations in which entrepreneurs act.
- Key steps involved in starting and managing a pharmaceutical start-up.

Dr. BALAGANI PAVAN KUMAR

M Pharm, Ph.D, FIC, FBSS, FACE, FICCP, MISTE

PROFESSOR & PRINCIPAL

GOKULA KRISHNA COLLEGE OF PHARMACY

SULLURPET, SPSR NELLORE DT., A.P-524121

OUTCOME OF THE PROGRAM:

The outcome of this seminar provide a clear platform for the students to

- Under stands the strategies for starting a successful pharmaceutical start-up
- Provide a frame works and legal considerations in pharmaceutical industry.
- Increases the effective marketing and scale strategies

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT WORKSHOP

SA work shop is a structured and interactive session designed to create an environment for meaningful work and to guide a group through a process that will lead to great outcomes. A work shop is assembled group of 10 to 25 persons who share a common interest or problem. They meet together to improve their individual skill of a subject through intensive study, research, practice and discussion. In workshops students get fully involved in the learning process: small group discussions, activities and exercises, opportunities to practice applying the concepts that are that are presented.

Clinical research is a branch of health care science that determines the safety and effectiveness of medications, devices, diagnostic products and treatment regimens intended for human use. Pharmacovigilance is relating to the collection, detection, assessment, monitoring and prevention of adverse effects with pharmaceutical product.

OBJECTIVE OF THE PROGRAM:

The aim of this seminar is

- .To improve patient care and safety
- . To improve public health and safety.
- .Promote understanding ,education and clinical training in pharmacovigilance and clinical research
- . To encourage the safety ,rational and appropriate use of drugs

Dr. BALAGANI PAVAN KUMAR

M.Pharm.Ph.D, FIC, FBSS, FACE, FICCP, MISTE
PROFESSOR & PRINCIPAL

GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, SPSR NELLORE DT. A.P-524121

OUTCOME OF THE PROGRAM:

The integrated program could enable the students to

- Shows increased knowledge of safety rather than to identify harm.
- Improved to create better pharmacovigilance practices.
- Understand on adverse drug reaction reporting, educating health professional and the public.
- Understand the effectiveness or risk of medicines
