ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

Faculty development is essential for renewing and assisting faculty to maintain teaching effectiveness and adapt to innovations. This FDP empowers the participants in the domain of analysis. This would enable the participants to gain knowledge of instrumental methods for the analysis of herbal drugs. Quality control of herbal crude drugs and their constituents is of great importance in modern system of medicine. Standardization assures that product is reliable in terms of quality, efficacy, performance and safety. So, this program may enhance the knowledge of participants in the field of assessing the quality of herbal drugs.

Gold Medal 2014-15

OBJECTIVE OF THE PROGRAM:

•The important object of this program is to know about Some modern analytical techniques for the analysis of the herbal drugs are very much essential for global acceptance of Ayurveda and traditional herbs.

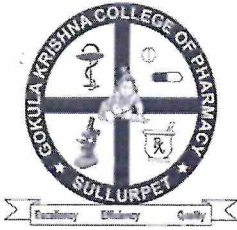

OUTCOME OF THE PROGRAM:

- Narrate about various evaluation methods for herbal drugs.
- Handle analytical technique instrumental for the analysis of the herbal drugs.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

Faculty development is essential for renewing and assisting faculty to maintain teaching effectiveness and adapt to innovations in Health Professions educational institutions. Proper regulatory system ensures the quality, safety and efficacy and standard of medicinal product for sales, importing and manufacturing. Understanding the regulatory scenario is extremely crucial due to the rapid and ongoing changes and due to the burden on the regulatory bodies to ensure a healthy supply of quality drugs at affordable price to the Indian masses. So, this will be a good platform to know.

OBJECTIVE OF THE PROGRAM:

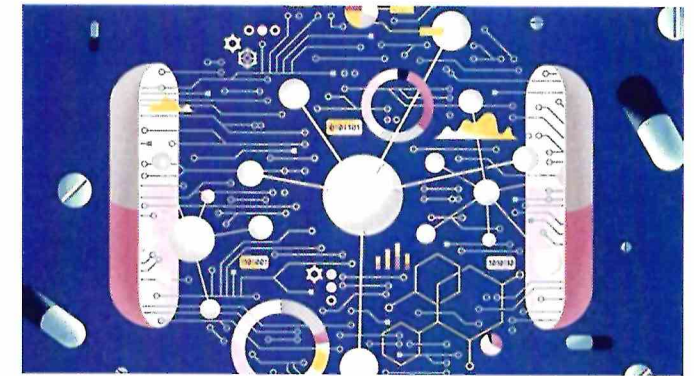

- Development of the drug product
- Development of manufacturing process
- Development of product controls
- Support to the development process

OUTCOME OF THE PROGRAM:

- Participants can able to bring changes in conditions and practices of drug product development, manufacturing process, product control as current trend in pharmaceutical products to develop and revolutionize the health care system
- Participants can describe how these recent trends impact on the role of the regulatory affairs professional.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

AF JUT FDP

The aim of FDP is to bring the faculty fraternity and scientific community into the one umbrella and explore the importance of pharmacy education in academics, research industry and drug control aspects so as to improve the overall healthcare system across the world.

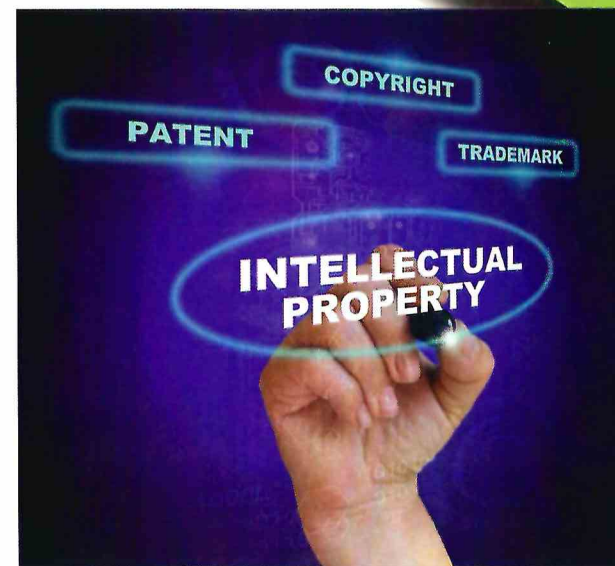

This FDP is designed for the faculty members, lectures who would like to get a sound understanding about writing their research work for peer reviewed national and international journal publications and doctoral dissertations. From this program participants able to know facets of writing, commencing with problem definition to sharing their published work in front of large audience. By using this session the resource persons will share their experience related to journal publication which in tune will benefits the participants to generate high quality research outcome.

OBJECTIVE OF THE PROGRAM:

- To give a brief understanding of the manner, significance, content and structure of a legal report
- Understand the process of report writing
- To provide certain precautions and checklist to the researcher to create a more intensive and accurate research report.

OUTCOME OF THE PROGRAM:

- Describe basic legal research report along with how the report must be made with certain point while doing the research and writing the final report.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT MDP

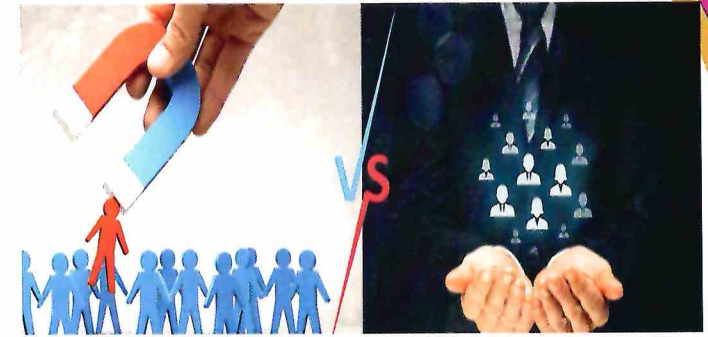

The growth of a student would be complete when the surrounding facilitators both in academic, practical and administration all contribute in the development of the student and make him more successful so not only the teaching, non-teaching staff also has important role to play. The need for comprehensive education is growing more and more and demand for quality education is becoming irrefutable. The partners of education industry not only the teaching faculty but also the supporting staff in both administration and lab purposes is becoming a must and development oriented with it. From our experience we observe that only teaching staff or the faculty alone get some training inputs, but there is a definite lack of training for the non-teaching staff, Administrative Staff and Technicians, this can result in the imbalance in the students growth, so it is recommended that for the best values that the college or Institution can get only when the training is ensured for both teaching and nonteaching staff.

OBJECTIVE OF THE PROGRAM:

- Administrative processes and procedures,
- Financial rules and procedures,
- Establishment rules and procedures.

OUTCOME OF THE PROGRAM:

- Intellectual and skilled development activities in any or all academic, administrative, and non-teaching workers to stay updated,
- To enrich their effective communication,
- To cost-efficient leadership,
- To long-term management availability.

 - Establishment rules and procedures.
- Outcome of the Program** : On completion of this program, participants may raise:
- Intellectual and skilled development activities in any or all academic, administrative, and non-teaching workers to stay updated,
 - To enrich their effective communication,
 - To cost-efficient leadership,
 - To long-term management availability.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

The aim of FDP is to bring the faculty fraternity and scientific community into the one umbrella and explore the importance of pharmacy education in academics, research industry and drug control aspects so as to improve the overall healthcare system across the world.

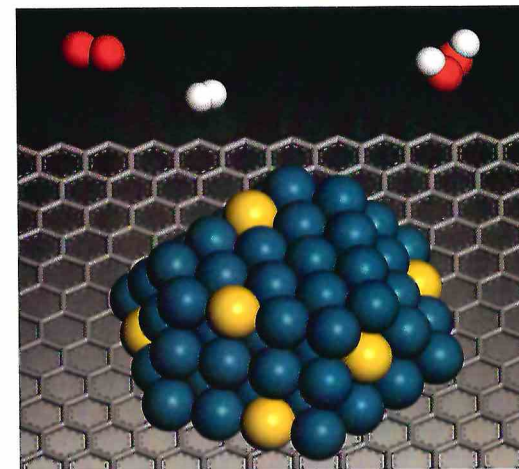

Nanoparticles are materials with overall dimensions in the nanoscale, i.e under 100 nm. In recent years, these materials have emerged as important players in modern medicine, with applications ranging from contrast agents in medical imaging to carriers for gene delivery into individual cells. From this FDP participants gain the knowledge in Nanoparticles have made major contributions to clinical medicine in the area of medical imaging and drug/gene delivery.

OBJECTIVE OF THE PROGRAM:

- Past, present, future challenges in Nanoparticles and applications of Nanoparticles in the treatment of human diseases.
- Contemporary future Nanotechnology applications in the medical field.
- Nanoparticles in medical imaging
- Quantum dots

OUTCOME OF THE PROGRAM:

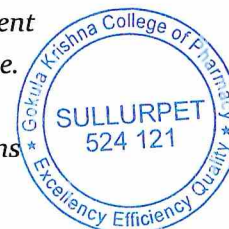

- Improve their research activity in drug development
- Narrate the future challenges in modern medicine.
- Develop methods to synthesize nanomaterial's
- Describe the Nanoparticles-biological interactions

Objective of the Program

: The main objective of this program is to know about

- Past, present, future challenges in Nanoparticles and applications of Nanoparticles in the treatment of human diseases.
- Contemporary future Nanotechnology applications in the medical field.
- Nanoparticles in medical imaging
- Quantum dots

Topics Covered

- : • Nanoparticles in modern medicine: state of the art and future challenges.
- Nanoparticles applications in medicine
 - Role of Nanoparticles in the treatment of human disease

Outcome of the Program

- : We collected open feedback from the faculty members; from this program, the participants were able to
- Improve their research activity in drug development
 - Narrate the future challenges in modern medicine.
 - Develop methods to synthesize nonmaterial's
 - Describe the describe the Nanoparticles-biological interactions

Number of Participants

: 28
