## ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

## ABOUT MDP

The growth of a student would be complete when the surrounding facilitators both in academic, practical and administration all contribute in the development of the student and make him more successful so not only the teaching, non-teaching staff also has important role to play. The need for comprehensive education is growing more and more and demand for quality education is becoming irrefutable. The partners of education industry not only the teaching faculty but also the supporting staff in both administration and lab purposes is becoming a must and development oriented with it. From our experience we observe that only teaching staff or the faculty alone get some training inputs, but there is a definite lack of training for the non-teaching staff, Administrative Staff and Technicians, this can result in the imbalance in the students growth, so it is recommended that for the best values that the college or Institution can get only when the training is ensured for both teaching and nonteaching staff.

### OBJECTIVE OF THE PROGRAM:

- Processes and procedures for administration
- Financial rules and procedures
- Lab safety and lab procedures

### OUTCOME OF THE PROGRAM:

- Spice up their perfection and improve their proficiency at the workplace.
- Develop the potential and build success in the organization.
- Enhance higher-level responsibilities within the organization.
