Course Schedule

Course Name : A Two-week add-on program on "Copious view of Material Handling Technique"

Course Duration: Two weeks (08.05.2019 to 24.05.2019)

S.No	Session Date	Topics to be Covered
1	08-05-2019	Introduction of material handling technique
2	09-05-2019	Factors affecting the selection of material handling technique
3	10-05-2019	Types of material handling technique: Screw conveyors,
4	13-05-2019	Bucket conveyor, Pneumatic conveyor,
5	14-05-2019	Chain conveyor, Belt conveyor
6	15-05-2019	Mixers: Tumblers, Agitator mixers, Processors
7	16-05-2019	Liquid mixers: Impellers, Jet mixers
8	17-05-2019	Valves: Globe valve, Gate valve,
9	18-05-2019	Diaphragm valve, Check valve Plug valve
10	20-05-2019	Pumps: Plunger Pump,
11	21-05-2019	Diaphragm pump, Centrifugal pump
12	22-05-2019	Piston pumps, Gear pumps, Lobe pumps
13	23-05-2019	Gas handling technique: Identification of gas
14	24-05-2019	Handling and use

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

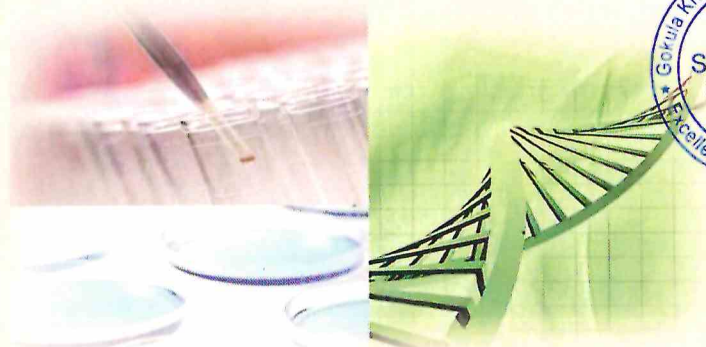

ABOUT ADD-ON PROGRAM

Add-on courses are short-term training programs that are designed to supplement the core curriculum of a degree program. These courses are usually offered as certificate and they provide students with additional skills and knowledge that are relevant to their field of study. These courses improve student satisfaction by providing students with opportunities to develop additional skills and knowledge that are relevant to their career goals.

Material handling is the movement, protection, storage and control of materials and products throughout manufacturing, warehousing, distribution, consumption and disposal. A material handling system should be put in place to optimize the movement of goods and materials around manufacturing and storage facilities.

OBJECTIVE OF THE PROGRAM:

- Define and establish a pre-task plan before moving a load
- Learn and improve facility utilization
- Learn and improve safety and working conditions

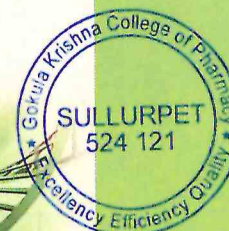

OUTCOME OF THE PROGRAM:

- Increase the efficiency of material flow by ensuring availability of when and where they needed
- Reduce the material handling cost
- Improve the safety and working conditions

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT ADD-ON PROGRAM

Add-on courses are short-term training programs that are designed to supplement the core curriculum of a degree program. These courses are usually offered as certificate and they provide students with additional skills and knowledge that are relevant to their field of study. These courses improve student satisfaction by providing students with opportunities to develop additional skills and knowledge that are relevant to their career goals.

Pharmacy Practice is the discipline of pharmacy which involves developing the professional roles of pharmacists. Pharmacy Practice offers practicing pharmacists in-depth useful reviews and research trials and surveys of new drugs and novel therapeutic approaches.

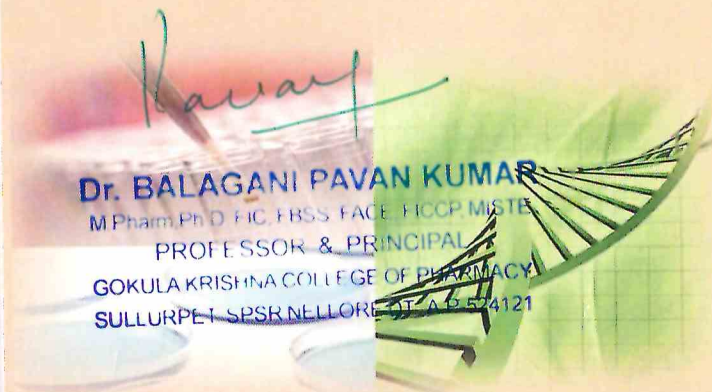

Graduates who have completed add-on courses may be able to command higher salaries than their peers who have not completed additional training. This is because employers recognize the value of specialized expertise and are willing to pay a premium for it.

OBJECTIVE OF THE PROGRAM:

- Understand the functions of community pharmacy & the responsibilities of a pharmacist and assistant pharmacist in a community pharmacy set up
- Integrate and apply their theoretical knowledge into practicing skills for providing a better pharmaceutical care

OUTCOME OF THE PROGRAM:

- Recognize various drug distribution system in the hospital
- Describe the role of pharmacy and therapeutic committee
- Describe the functions and responsibilities of clinical pharmacist

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT ADD-ON PROGRAM

Add-on courses are short-term training programs that are designed to supplement the core curriculum of a degree program. These courses are usually offered as certificate and they provide students with additional skills and knowledge that are relevant to their field of study. These courses improve student satisfaction by providing students with opportunities to develop additional skills and knowledge that are relevant to their career goals.

Quality control makes sure the end product meets the quality requirements quality assurance makes sure that the process of manufacturing the product does adhere to standards. Quality Assurance is a broad practice used for assuring the quality of products or services. quality control is a product-oriented process. When it comes to quality assurance, it is a process-oriented practice. Therefore quality assurance can be identified as a proactive process, while quality control can be noted as a reactive process.

Graduates who have completed add-on courses may be able to command higher salaries than their peers who have not completed additional training. This is because employers recognize the value of specialized expertise and are willing to pay a premium for it.

OBJECTIVE OF THE PROGRAM:

- Learn how to do the documentation and review the document for product design
- Understand the responsibilities of QC and QA department

Learn about quality audit, developing tools like process standards and checklists

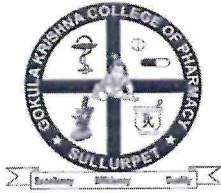

OUTCOME OF THE PROGRAM:

- Express the main attributes of quality assurance system
- Explain the difference between quality control and quality assurance
- Identify and implement the sampling and analytical technologies which limit the introduction of errors in to analytical data

PROGRAM REPORT

- Name of the Program** : A Two-week **add-on program** on "**Comprehensive View of Quality Control and Quality Assurance**"
- Date of the Program** : 12.03.2019 to 27.03.2019
- Details of the Resource Person** : **Mr. A.V.L.S.Ramakrishna**
Asst.professor, Dept. of Pharmaceutical analysis,
Gokula Krishna college of pharmacy, Sullurupeta,
SPSR Nellore Dist. A.P
Contact number: +91 7382956756
Mail id: atchutapharma431@gmial.com
- Objectives of the Program** : Towards culmination of this course students would be able to
- Understand the importance of documentation
 - Learn how to do the documentation and review the document for product design
 - Understand the responsibilities of QC and QA department
 - Learn about quality audit, developing tools like process standards and checklists
- Topics covered** : Course was started with Introduction to QA, QC and it goes with
- Responsibilities of QA and QC
 - Sources and control of quality variation
 - Raw material control
 - In-process item control
 - Manufacturing variation control

- Quality assurance management procedure
- Total quality control
- Total quality management

Outcome of the Program : Upon accomplishment of this program, a student will be expected to be able to

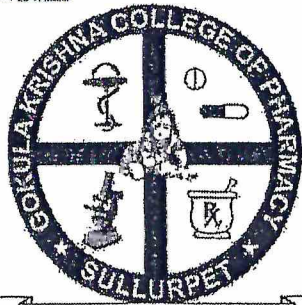

- Express the main attributes of quality assurance system
- Explain the difference between quality control and quality assurance
- Identify and implement the sampling and analytical technologies which limit the introduction of errors in to analytical data
- Improve product quality and reduce risks there by gain production efficiencies
- Ensure that the product meets established quality standards and customer requirements

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT ADD-ON PROGRAM

Add-on courses are short-term training programs that are designed to supplement the core curriculum of a degree program. These courses are usually offered as certificate and they provide students with additional skills and knowledge that are relevant to their field of study.

These courses improve student satisfaction by providing students with opportunities to develop additional skills and knowledge that are relevant to their career goals.

These trials are the primary way that researchers determine if a new form of treatment or prevention, such as a new drug, diet, or medical device (for example, a pacemaker), is safe and effective in people. When carefully conducted, they are the safest and fastest way to find new treatments and ways to improve health.

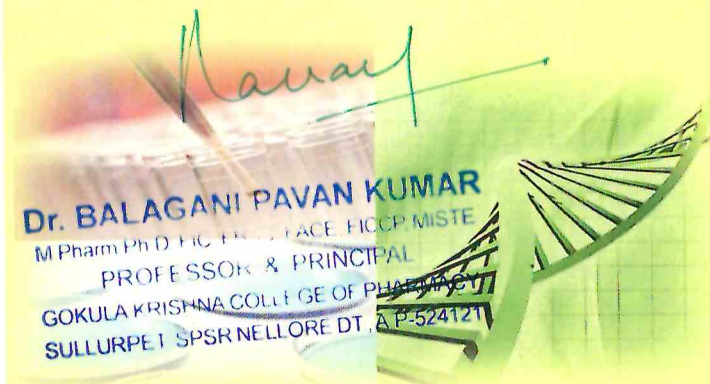

Graduates who have completed add-on courses may be able to command higher salaries than their peers who have not completed additional training. This is because employers recognize the value of specialized expertise and are willing to pay a premium for it.

OBJECTIVE OF THE PROGRAM:

- Know the new drug development
- Understand the regulatory and ethical requirements
- Know the safety monitoring and reporting in clinical trials

OUTCOME OF THE PROGRAM:

- Narrate the clinical drug and medical device development process
- Describe the different types and phases of clinical trials
- Depict the regulatory requirements and guidance for conduct of clinical trial and research

PROGRAM REPORT

- Name of the Program** : A Two-week **add-on program** on "A Narrative View of Obstacles and Considerations Related to Clinical Trial Research"
- Date of the Program** : 18-02-2019 to 06-03-2019
- Details of the Resource Person** : **Ms. B.Silpa**
Asst.professor, Dept of Pharmacology,
Gokula Krishna college of pharmacy, Sullurupeta,
SPSR Nellor Dist. A.P
Contact number: +91 8919765889
Mail id: silpabathala08@gmail.com
- Objectives of the Program** : Towards completion of this course students will be able to
- Know the new drug development
 - Understand the regulatory and ethical requirements
 - Know the safety monitoring and reporting in clinical trials
 - Understand the new drug development process
- Topics covered** : Course was scrolled down with
- Types of clinical trials
 - Design of clinical trial
 - Parallel study design
 - Cross over study design
 - Factorial study design
 - Phases of clinical trial
 - Clinical trial regulations in India

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT ADD-ON PROGRAM

Add-on courses are short-term training programs that are designed to supplement the core curriculum of a degree program. These courses are usually offered as certificate and they provide students with additional skills and knowledge that are relevant to their field of study. These courses improve student satisfaction by providing students with opportunities to develop additional skills and knowledge that are relevant to their career goals.

Pharmaceutical validation is important to the manufacturing process to ensure product consistency and safety. It involves regulation of all raw materials and production procedures as well as testing of final product. Validation is the process of establishing documentary evidence of the consistency of any process or system & it is the collection and evaluation of data from the process design stage which establishes scientific evidence that a process is capable of consistently delivering quality product.

Graduates who have completed add-on courses may be able to command higher salaries than their peers who have not completed additional training. This is because employers recognize the value of specialized expertise and are willing to pay a premium for it.

OBJECTIVE OF THE PROGRAM:

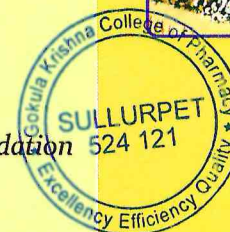

- Understand the regulatory basics for process validation and outline the prospective validation
- Learn the importance of patent and intellectual property rights

OUTCOME OF THE PROGRAM:

- Delineate the proper planning and preparation before performing validation activities
- Perform a validation process in a structured way according to protocols and documented procedures

PROGRAM REPORT

- Name of the Program** : A Two-week add-on program on "Circumstantial view of Importance of Validation in Pharmaceutical Industry"
- Date of the Program** : 14-09-2018 to 03-10-2018
- Details of the Resource Person** : **Mr. K.R.S.C. Bharath Kumar**
Asst. Professor, Dept of Pharmaceutics,
Gokula Krishna college of pharmacy, Sullurupeta,
SPSR Nellore Dist. A.P
Contact number: : +91 8074554132
Mail id: krsc.mpharm1@gmail.com
- Objectives of the Program** : Towards execution of this course students will be able to
- Understand the concept of calibration, qualification and validation
 - Understand the regulatory basics for process validation and outline the prospective validation
 - Learn the importance of importance of patent and intellectual property rights
- Topics covered** : Course was started with Pharmaceutical Validation and
- The scope of validation
 - Types of validation
 - Process validation
 - Cleaning validation
 - Equipment validation
 - Validation of analytical methods

- Validation Master Plan
- Validation Protocols
- Phases of process validation
- Revalidation

Outcome of the Program : Upon accomplishment of this program, a student would be expected to be able to

- Describe the process of validation and quality assurance
- Delineate the proper planning and preparation before performing validation activities
- Perform a validation process in a structured way according protocols and documented procedures
- Narrate the patent and intellectual property rights

Number of Participants : 30

A.Y: 2018-2019

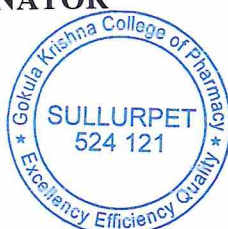

Course Schedule

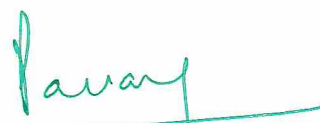

Course Name : A Two-week add-on program on "Exhaustive View of Research Methodology and Importance Biostatistics in Pharmacy Profession"

Course Duration : Two weeks (16-07-2018 to 01-08-2018)

S.No	Session Date	Topics to be Covered
1	16-07-2018	Introduction of research methodology
2	17-07-2018	Characteristics and criteria of research
3	18-07-2018	Qualities and motivation of good research
4	19-07-2018	Types of research
5	20-07-2018	Research approaches
6	21-07-2018	Research process
7	23-07-2018	Need for literature survey, problems encountered by researchers
8	25-07-2018	Importance of biostatistics
9	26-07-2018	Measures of central tendencies
10	27-07-2018	Types of statistical averages
11	28-07-2018	Mean: Arithmetic mean, Combined mean
12	30-07-2018	Logarithm
13	31-07-2018	Antilogarithm
14	01-08-2018	Mean: Geometric mean, Harmonic mean

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

AFJUT ADD-ON PROGRAM

Add-on courses are short-term training programs that are designed to supplement the core curriculum of a degree program. These courses are usually offered as certificate and they provide students with additional skills and knowledge that are relevant to their field of study. These courses improve student satisfaction by providing students with opportunities to develop additional skills and knowledge that are relevant to their career goals.

"Pharmaceutical Research Methodology and Bio-Statistics" is aimed in understanding the fundamental concepts of developing research bent of mind by careful planning, execution, collection of data and analyzing for statistical significance. Research is a part of execution of an idea developed. Biostatistics has an important role in both designing a pharmaceutical experiment and evaluating its results.

Graduates who have completed add-on courses may be able to command higher salaries than their peers who have not completed additional training. This is because employers recognize the value of specialized expertise and are willing to pay a premium for it.

OBJECTIVE OF THE PROGRAM:

- Recognize the various statistical methods to solve different types of problems
- Learn general research methodology and the basic concepts of biostatistics

OUTCOME OF THE PROGRAM:

- Identify the overall process of designing a research study from its inception to its report
- Be familiar with how to write a good introduction to an educational research study
- Analyze the different type of data using appropriate statistical software

PROGRAM REPORT

- Name of the Program** : A Two-week **add-on** program on "Exhaustive View of Research Methodology and Importance of Biostatistics in Pharmacy"
- Date of the Program** : 16-07-2018 to 01-08-2018
- Details of the Resource Person** : **Mr. M.R.Pavan Kumar**
Asst. Professor, Dept of Pharmaceutical chemistry,
Gokula Krishna college of pharmacy, Sullurupeta,
SPSR Nellore Dist. A.P
Contact number: +91 9963170098
Mail id: pavanm660@gmail.com
- Objectives of the Program** : Towards completion of the program of this course, students will be able to
- Recognize the various statistical methods to solve different types of problems
 - Learn general research methodology and the basic concepts of biostatistics
 - Understands the importance of computer in hospital and community pharmacy
 - Acquire a knowledge of statistical technique in solving the pharmaceutical techniques
 - Learn to operate various statistical software packages

- Topics covered** : Course was scrolled down with Research methodology
- Along with its types
 - Requirement of research
 - Practical difficulties
 - Need for Literature review
 - Study design
 - Types of studies
 - Objectives of Biostatistics
 - Analysis and interpretation
- Outcome of the Program** : Upon accomplishment of this program, a student will be expected to be able to
- Identify the overall process of designing a research study from its inception to its report
 - Be familiar with how to write a good introduction to an educational research study
 - Analyze the different type of data using appropriate statistical software.
- Number of Participants** : 30
