ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Drug discovery and development is a dynamic field that constantly evolving with the aim of identifying novel therapeutic agents to combat various diseases. The discovery of novel drugs has played a pivotal role in transforming medical treatment and improving patient outcome in diseases.

OBJECTIVE OF THE PROGRAM:

The role of this seminar is to bring out :

- The innovative approaches and targeted therapeutics.
- Recent advances in drug discovery,
- Highlighting innovative approaches and targeted therapeutics that have emerged in recent years.
- Techniques and strategies used in drug design and development

Dr. BALAJI RAYAN KUMAR

M.Pharm, Ph.D, FIC, FBSS, FACE, FICCP, MISTE
PROFESSOR & PRINCIPAL

GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, SPSR NELLORE DT., A.P-524121

OUTCOME OF THE PROGRAM:

Upon completion of the program students could be able to

- Create a innovative approach in targeted therapeutics
- Provide the knowledge of integration of artificial intelligence; machine learning, high throughput screening, and rational drug design accelerate the potential of drugs to streamline the drug development process.

Phone : +91 9985081813

Objective of the Program :

- ❖ Students would learn the processes involved in drug discovery and development i.e.,
 - Preclinical studies
 - Clinical development
 - Drug safety of the disease
 - How drugs are evaluated in human clinical trials
 - Market approval.
- ❖ Students will understand the role of FDA in drug discovery & development.
- ❖ Understand the current ongoing researches on drug discovery and development.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

AP OUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Pharmaceutical science is the science underpinning the discovery, development, production and use of medicines the role of pharmaceutical science is crafting the right molecules and getting them to the right targets at the right time so they have effective therapeutics

OBJECTIVE OF THE PROGRAM:

- To provide a fundamental information and the general principles underlying the use of pharmacological agents in the practice of medicine

. To focus on drug design, synthesis drug discovery, targeting, distribution, safety and efficacy of potential therapeutics.

M.Pharm, Ph.D, FIC, FBSS, FACE, FICCP, MISTE
PROFESSOR & PRINCIPAL

GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, SPSR NELLORE DT., A.P-524121

OUTCOME OF THE PROGRAM:

This program helps the student to develop, integrate and apply knowledge in all the fields of pharmaceutical sciences like

- Biomedical
- Design
- Synthesis
- Targeting,
- Distribution,
- And Safety of drugs.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

AL JUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience. Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants. Seminar is simply together for the discussion and learning of specific techniques and topics.

Intellectual property rights (IPRs) are legal rights that protect creations or / and inventions resulting from intellectual activity in the fields like industrial, scientific, literary or artistic fields

The most common IPR include patents, copyrights, Marks and trade secrets.

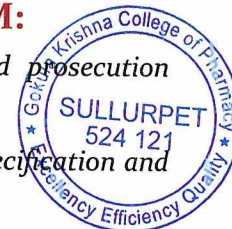

A patent is an exclusive right grant for an invention, which is a product or a process that provides, in general, a new way of doing something, or offers a new technical solution to a problem. To get a patent, technical information about the invention must be disclose to the public in a patent application

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Computer aided drug design is a growing area of research encompassing many facets. it consists of various aspects of applied and basic research merge together and stimulate their potentials.

OBJECTIVE OF THE PROGRAM:

- This program brings out the knowledge on computer aided drug design methods like
- 3D structures of potential drug target
- Computational technique involved in compound screening to clinical trails
- Principles and concepts of molecular docking, pharmacophores and other methods.

Dr. BALAGANI PAVAN KUMAR

M.Pharm, Ph.D, FIC, FBSS, FACE, FICCP, MISTE
PROFESSOR & PRINCIPAL

GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, SPSR NELLORE DT., A.P-524121

OUTCOME OF THE PROGRAM:

Students can outline the entire process involved in the CADD methods.

- Promote significant improvement in compound screening, prediction of the structure, binding site activity,
- Provide the knowledge on 2D,3D structures, genomics, bioinformatics, combinatorial chemistry of virtual screening, compound selection etc.,

PROGRAM REPORT

- Name of the Program** : **One day Seminar on "Applications on Computer Aided Molecular Drug Design and Research"**
- Date of the Program** : 16-12-2020
- Details of the Resource Person** : Ms T. Prasanthi,
Associate Professor, Department of pharmaceutical analysis,
V.V Institute of pharmaceutical sciences, Gudlavalleru.
Mail id : prasanthi8585@gmail.com
Phone : +91 9951400935
- Objective of the Program** : Objective of the program is to get the knowledge the on computer aided drug design methods like
- 3D structures of potential drug target
 - Computational technique involved from leading compound screening to preclinical trails
 - Principles and concepts of molecular docking, pharmacophores and other methods
- Outcome of the Program** :
- Student can outline the entire process involved in the CADD methods
 - Student could explain the structure based drug design including the molecular docking technique

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience. Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants. Seminar is simply together for the discussion and learning of specific techniques and topics.

Entrepreneurship is the art of turning a good idea into a successful business despite all the obstacles in your way. Entrepreneurship is a process through which individuals identify opportunities, allocate resources and create value, also plays a pivotal role in economic development

OBJECTIVE OF THE PROGRAM:

- To establish a frame work for pharmacy transformation
- To incorporate professional identity formation
- To help to develop a professional mindset and leadership among students
- Exploring the principles and strategies for starting a successful pharmaceutical start-up

OUTCOME OF THE PROGRAM:

- Upon successful completion of the program students can able to
 - Improved the educational quality.
 - Helped to develop a good start-up in education, training, research and professional development.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Polymers are the backbone of pharmaceutical drug delivery system, they control the release of the drug from the device

it protect drug from physiological environment and prolong release of drug to improve the stability.

OBJECTIVE OF THE PROGRAM:

At the end of the program students will be able understand about

- The basic features of a polymer.
- Properties of polymer
- Structure, mechanical properties, application processing and the understanding of intermolecular forces

Dr. BALAGANI PAVAN KUMAR
M.Pharm, Ph.D, FIC, FBSS, FACE, FICCP, MISTE
PROFESSOR & PRINCIPAL
GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, NELLORE DIST. A.P. 524121

OUTCOME OF THE PROGRAM:

From this seminar students could be able to understand

- The integration of polymer technique into the pharmaceutical industry.
- Increase the Production of more effective and affordable drugs
- Structures, Mechanical properties, Processing
- Intermolecular forces to thermosetting and thermo softening polymer.

PROGRAM REPORT

Name of the Program : One day seminar on "Role of Polymers in Research and its Applications"

Date of the Program : 25-02-2021

Details of the Resource Person : Mrs. D. Kalyani,
Associate professor, Department of Pharmaceutics,
Jagans college of pharmacy, Nellore.

Mail id : kevinkarunya@gmail.com,

Phone : +91 8106686200

Objective of the Program : At the end of the program students will be able to

- Learn the basic features of a polymer.
- Understanding of intermolecular forces of polymer.
- List and state the commonly used polymer.
- Understand the various types of polymers in pharmaceutical sciences with its applications.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT WORKSHOP

A work shop is a structured and interactive session designed to create an environment for meaningful work and to guide a group through a process that will lead to great outcomes. A work shop is assembled group of 10 to 25 persons who share a common interest or problem. They meet together to improve their individual skill of a subject through intensive study, research, practice and discussion. In workshops students get fully involved in the learning process: small group discussions, activities and exercises, opportunities to practice applying the concepts that are that are presented.

Coronavirus disease is a contagious disease caused by the virus SARS-CoV-2, the first known case was identified in Wuhan, China, in December 2019. The disease quickly spread worldwide, resulting in Covid-19 pandemic. The virus transmitted by respiratory droplets released into the air by infected person coughs, sneezes, talks, sings or breathes near you

OBJECTIVE OF THE PROGRAM:

- The goal of this seminar is to bring knowledge in medical education, digital technologies in pandemic management and response.
- To discuss about data science, machine learning and artificial intelligence and various modern technology used to fight against Covid-19.

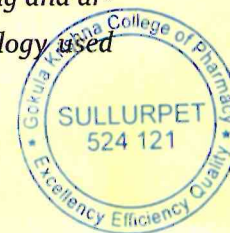

DR. BALAGANI PAVAN KUMAR
M.Pharm, Ph.D, FIC, FBSS, FACE, FICCP, MISTE
PROFESSOR & PRINCIPAL
GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, SPSR NELLORE DT. A.P-524121

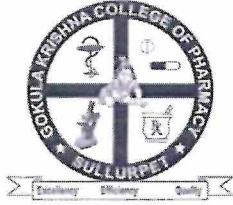

OUTCOME OF THE PROGRAM:

The outcome of this seminar is to provide the knowledge to the students about

- The modern technology contributed in improving people's lives
- Research plans on develop and validate new diagnostic technology
- Artificial intelligence and research plans plays a significant advantage in helping people to fight against this infection

Mail id: poorna7575@gmail.com
Phone : +91 9885071976
- Objective of the Program** :
- Students can learn about bio-psychosocial impacts of covid-19.
 - Students should learn about telemedicine.
 - Students should get knowledge on Polymerase Chain Reaction.
 - Should understand the importance of PPEs usage.
- Outcome of the Program** : The outcome of this seminar is
- Describe the Advancements in telemedicine, new diagnostic tools, and improvement in personal protection equipment of Covid- 19.
