## ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

## ABC Y)T WORKSHOP

A work shop is a structured and interactive session designed to create an environment for meaningful work and to guide a group through a process that will lead to great outcomes.

A work shop is assembled group of 10 to 25 persons who share a common interest or problem. They meet together to improve their individual skill of a subject through intensive study, research, practice and discussion. In workshops students get fully involved in the learning process: small group discussions, activities and exercises, opportunities to practice applying the concepts that are that are presented.

"Pharmacovigilance is the science relating to the collection, detection, monitoring and prevention of adverse effects with pharmaceutical products any other medicine/vaccine related problem. Medicines and vaccines have transformed the prevention and treatment of diseases. In addition to their benefits, medicinal products may also have side effects, some of which may be undesirable and unexpected.

Pharmacovigilance is the study of safety of marketed drugs under the practical conditions of clinical use in large communities. PV is also concerned with the development of science and regulation in the area of drug safety.

  
**Dr. BALAGANI PAVAN KUMAR**  
M.Pharm, Ph D, FIC, FBSS, FACE, FICCP, MISTE  
PROFESSOR & PRINCIPAL  
GOKULA KRISHNA COLLEGE OF PHARMACY  
SULLURPET, SPSR NELLORE DT., A.P-524121

## OBJECTIVE OF THE PROGRAM:

- Prevention of adverse drug reactions.
- Detection of drug related problems at early stage.
- Artificial intelligence, patient engagement, digital data.
- Understands the importance of patient safety relation to medications use.

## OUTCOME OF THE PROGRAM:

- Prevention of adverse drug reactions with pharmaceutical products.
- Understand the effectiveness or risk of medicines prescribed.
- Development of science and regulation in the area of drug safety.

## ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

## ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience. Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants. Seminar is simply together for the discussion and learning of specific techniques and topics.

"Pharmacotherapy is the medical treatment that utilizes one or more pharmaceutical drugs to improve on-going symptoms and to prevent other diseases.

Clinical research brings out the comprehensive study of the safety and effectiveness of medication, devices, diagnostic product and treatment regimens intended for human use.

## OBJECTIVE OF THE PROGRAM:

- Understand recent updates in Drug Therapy Management.
- Discuss recent reported medication adverse reactions.
- Resolve the patient's actual drug related problems.

**Name of the Program** : One day Seminar on "Emerging Trends in Pharmacotherapy and Clinical Research"

**Date of the Program** : 16-07-2018

**Details of the Resource Person** : Dr. S.Nelson Kumar

Principal & Professor, Department of pharmacology,

P.Rami Reddy Memorial College of Pharmacy,

Email Id : nelsonhelpsu@yahoo.co.in

Mobile :+91 9505242242

**Objective of the Program** : The main objective of this seminar is to explain recent trends in Pharmacotherapy and clinical research and

- To cover the recent innovations that may revolutionize the development of drugs in the future.
- To Understand recent updates in drug therapy management
- To Learn the Virtual reality (VR), Augmented reality (AR), and Mixed reality (MR) in clinical trials.
- Understand the combination therapy in pharmacotherapy.

## ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

## ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Intellectual Property Rights (IPRs) are the rights associated with intangible property owned by a person/company and protected against use without consent. Thus, rights relating to ownership of intellectual property are called Intellectual Property Rights.

Intellectual property (IP) is a property that arises from the human intellect. It is a product of human creation.

Intellectual property (IP) is a category of property that includes intangible creations of the human intellect. The best-known types are patents, copyrights, trademarks, and trade secrets. The main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods for consumers. These rights aim to protect intellectual property (creations of human intellect) by allowing the creators of trademarks, patents, or copyrighted works to benefit from their creations.

Innovations involve improving the methods of working / producing goods. Often it will involve better technology and better methods of working.

*M. Narayana*  
**Dr. BALAGANI PAVAN KUMAR**  
PROFESSOR & PRINCIPAL  
GOKULA KRISHNA COLLEGE OF PHARMACY  
SULLURPET, SPSR NELLORE DT., A.P-524121

Innovations may be the results of research and development.

Innovations could also be a brainwave-eureka movement where someone has a good idea to improve working practices.

Research and development involves investment in discovering new technology and increasing capacity of a firm.

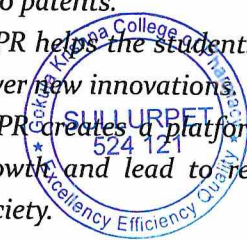

Successful research & development may lead to innovative new product.

## OBJECTIVE OF THE PROGRAM:

- The seminar is to boost the level of student's awareness, knowledge and information about IPR issues.
- The explanation on role of IPR leads to promoting to safeguard the interest of the innovators.
- Students should analyze
  - The impact of IPR on technology transfer.
  - Creative outcomes.
    - Investment in R&D at industry.
- The students learn to establish a startup company under IPR division which works under the ministry of electronics and information technology in India.

## OUTCOME OF THE PROGRAM:

- By attending the seminar the student learn to discover an
- By attending the seminar the student learn to discover and innovative in their specific area of interest like project / research/ Innovations.
- Students gain knowledge to convert their innovations into patents.
- IPR helps the students to enhance to take total control /over new innovations.
- IPR creates a platform to discuss and influence their growth and lead to research out to all classes of the society.

Seminar is simply together for the discussion and learning of specific techniques and topics.

'Ethical guidelines and regulations for animal experiments are rules that aim to protect the welfare of animals used for scientific purpose. Ethical guidelines and regulations are differ from country to country, but some common aspects include limiting the number and frequency of animal use, severity of pain distress, and the requirement of anesthesia and humane killing'.

## OBJECTIVE OF THE PROGRAM:

- Creates awareness on ethical regulations in animal experiments.
- Protect the welfare of animals used for scientific purpose.
- Understands the importance of animals used in the experimental methods.

## ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

## AI OUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience. Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants. Seminar is simply together for the discussion and learning of specific techniques and topics.

Entrepreneurship is a process of designing, launching and running a new business which is often initially a small business.

Entrepreneurship is a process through which individuals identify opportunities, allocate resources and create value, also plays a pivotal role in economic development.

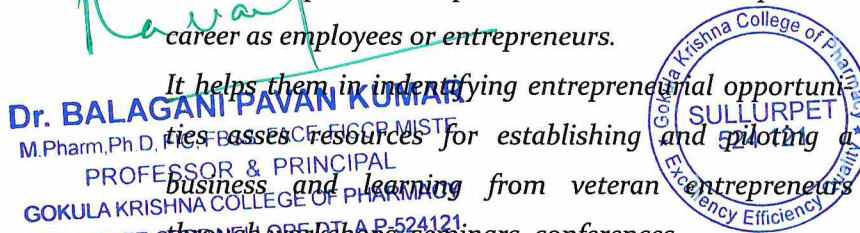

The employability and entrepreneurship skills equip the students with the skills needed in a global arena.

Students are consistently encouraged to take up domain specific skill training programmers to acquire hands on experience.

These initiatives help the students to enhance their inherent talents.

These competences help them to select and shape their career as employees or entrepreneurs.

It helps them in identifying entrepreneurial opportunities, assess resources for establishing and piloting a business and learning from veteran entrepreneurs through workshops, seminars, conferences.

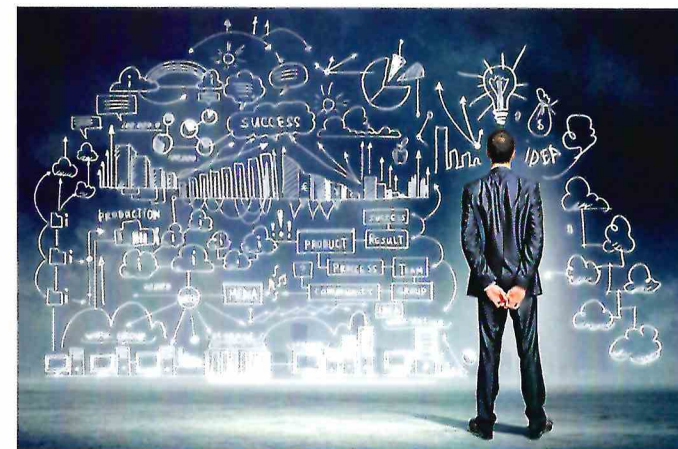

## OBJECTIVE OF THE PROGRAM:

- Students are encouraged to become entrepreneurs and established their startups.
- Students can learn about the economic growth of our country through the advantages of entrepreneurs.
- The students are empowered with information on risk and challenges of being an entrepreneurs and successfully establish big /small scale businesses.

## OUTCOME OF THE PROGRAM:

- The following points convey about the benefits and advantages the students gain on entrepreneur development program.
- Students inculcated spark creativity it helps them to promote effective communication.
- Students interaction with experienced entrepreneurs inculcates ledership development, learnt time management and basic life skills.
- Students learnt to identify opportunities for their career and future.

**Objective of the Program** : Objective of this program is to provide knowledge about pharmacy education composed of all aspects of drug including:

- Manufacturing, synthesis
- Quality control, quality assessments
- Marketing
- Handling
- Safety matters
- Patient care inventions and public awareness
- Future challenges and discoveries.

## ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

## ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

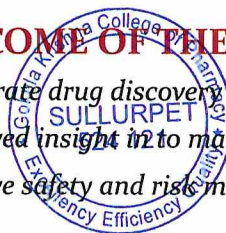

The pharmaceutical industry is a branch of chemical industry that discovers, develops, produces and markets drugs or pharmaceuticals. These drugs can be synthetic, plant-derived or animal-derived and can have various forms and dosages. The pharmaceutical industry is subject to laws and regulations that govern the patenting, testing, safety, efficacy and marketing of drugs.

### OBJECTIVE OF THE PROGRAM:

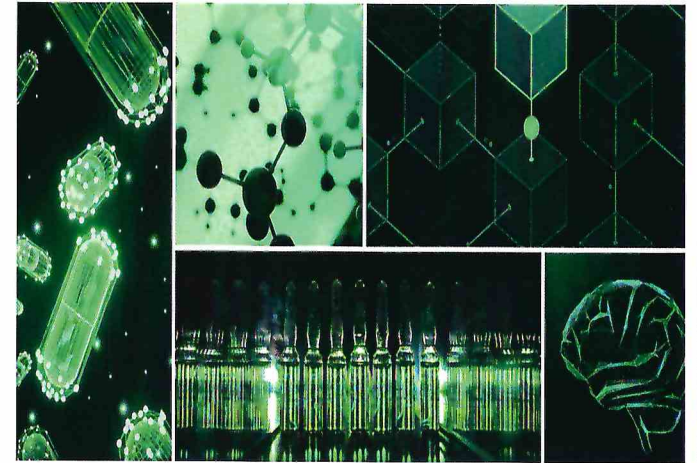

- Targeted drug delivery systems.
- Advanced coating technology.
- Nano particle based drug delivery.

### OUTCOME OF THE PROGRAM:

- Accelerate drug discovery and development.
- Improved insight in to marketing and sales.
- Improve safety and risk management.

## ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

## ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

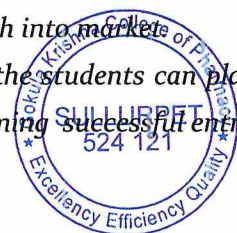

Seminar is simply together for the discussion and learning of specific techniques and topics.

A Career is a sequence of positions/ jobs held by a person during the course of his/her working life.

To retain top performers within the company. To motivate individuals and develop them to their full potential, by differentiating them from other employees based on their outstanding performance.

## OBJECTIVE OF THE PROGRAM:

- Seminar on career path to entrepreneurship in clinical labs can make the students get along as aspirants and learn introducing new drugs and improve health statics.
- Students can learn the use of effectiveness of medicines equipment and diagnostic products much before their launch into market.
- All the students can plan their career as an in put, for becoming successful entrepreneurs.

## ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

## ABOUT SEMINAR

A work shop is a structured and interactive session designed to create an environment for meaningful work and to guide a group through a process that will lead to great outcomes.

A work shop is assembled group of 10 to 25 persons who share a common interest or problem. They meet together to improve their individual skill of a subject through intensive study, research, practice and discussion. In workshops students get fully involved in the learning process: small group discussions, activities and exercises, opportunities to practice applying the concepts that are that are presented.

Design of experiments is a systematic, efficient method that enables to study the relationship between multiple input variables and key output variables.

Experimental design is a process of planning, and conducting scientific experiments to investigate a hypothesis or research. Experimental research design helps researchers execute their research objectives with more clarity and transparency.

Research methodology is a highly intellectual human activity used in the investigation of nature and matter and deals specifically with the manner in which data is collected, analyzed and interpreted. A system of models, procedures and techniques used to finish the result of a research problem is called research methodology.

**Dr. BALAGANI PAVAN KUMAR**

M.Pharm, Ph.D, FIC, FBSS, FACE, FICCP, MISTE

PROFESSOR & PRINCIPAL

GOKULA KRISHNA COLLEGE OF PHARMACY

SULLURPET, SPSR NELLORE DT., A.P-524121

## OBJECTIVE OF THE PROGRAM:

- Students should learn and practice the literature survey
- Learn, practice and improve the research presentation skills with latest tools.
- Understands the importance of research publication ethics.

## OUTCOME OF THE PROGRAM:

- Improve the presentation skills through the seminars.
- Improve the awareness on indexing, quality evaluation, author index of publications.
- Expertise in LaTeX tool for report preparation.

Professor & HOD, Department of Pharmaceutics,

Bapatla college of pharmacy, Bapatla, Guntur.

Email : tvrao250@gmail.com

Phone : +91 8106028256

**Objective of the Program** :

- The objective is to give knowledge on patient care and safety in relation to the use of medicines and all medical and pharmaceutical invention.
- Learn how to improve public health and safety in relation to the use of medicines

**Outcome of the Program** :

- The outcome of this seminar, students can describe the safety monitoring of medicinal products, drug monitoring, pharmaceutical preparation-adverse effects, adverse drug reaction reporting, product surveillance and legislation.

## ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Innovation is the complex process of introducing novel ideas in to practice. A process of ongoing, non-static, constantly renewed mindset of adding business value and increased productivity through demonstrated creativity and significant changes getting ideas and turn in to reality. Cutting edge technology refers to technological devices, techniques or achievements that employ the most current and high level IT developments.

Cutting edge strategies are applied in various methods like traditional paradigms in assay development.

## OBJECTIVE OF THE PROGRAM:

- Main focus on the study is the literature on pharmaceutical research and development.
- Learn general research methodology and the basic concepts of cutting edge technologies.
- Improve the efficacy and effectiveness of the drug development process.

## OUTCOME OF THE PROGRAM:

- Identify and validate new disease target by using powerful technologies.
- Students can able to the development of new drugs and treatment for various diseases.
- Gained the knowledge about molecular modeling, virtual screening, and data base mining etc.,
- Advancement in the progress of sample preparation and data processing techniques.
- Expertise in LaTeX tool for report preparation.
