ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

The aim of FDP is to bring the faculty fraternity and scientific community into the one umbrella and explore the importance of pharmacy education in academics, research industry and drug control aspects so as to improve the overall healthcare system across the world.

The faculty development program will help to spread knowledge in the domain of drug delivery system. Is a method or process of administering an active pharmaceutical ingredient to achieve therapeutic effect. This FDP empowers the participants to know about

- Evaluation of commercial drug delivery technologies.
- Cell and tissue targeted drug delivery
- Improved patient compliance due to less frequent drug administration
- Reduction of fluctuation in steady state drug levels
- Increased safety margin of potent drug

OBJECTIVE OF THE PROGRAM:

The objective of this program is to provide knowledge on Innovations In Drug Delivery Control system like

- T-based smart drug delivery system
- Needle free delivery
- Auto injectors
- Next- gen diabetes tech
- Drug eluting contact lenses

OUTCOME OF THE PROGRAM:

- Various drug delivery system to improve patient health
- New innovations to do Revolution in drug delivery system which improve drug potency
- Commercial methods for evaluate drug delivery system to enhancing therapeutic efficacy

Objective of the Program : The objective of this program is to provide knowledge on Innovations In Drug Delivery Control system like

- T-based smart drug delivery system
- Needle free delivery
- Auto injectors
- Next- gen diabetes tech
- Drug eluting contact lenses

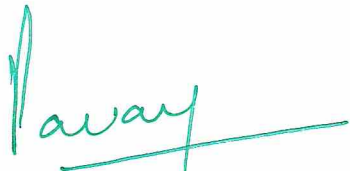

Topics Covered :
1. Cell-targeted delivery of therapies with lipid Nano particles
2. Tissue-targeted delivery to expand drug gable targets.
3. The evaluation of commercial drug delivery technologies.

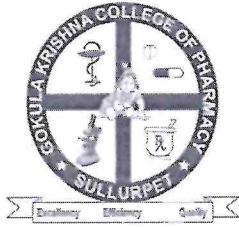

Outcome of the Program : This program helps the participants to centre their concentration on innovative researches, thereby they could be able to focus on

- Various drug delivery system to improve patient health
- New innovations to do Revolution in drug delivery system which improve drug potency
- Commercial methods for evaluate drug delivery system to enhancing therapeutic efficacy

ABOUT FDP

The aim of FDP is to bring the faculty fraternity and scientific community into the one umbrella and explore the importance of pharmacy education in academics, research industry and drug control aspects so as to improve the overall healthcare system across the world. Faculty development program on the trends in pharmaceutical research aims to provide insights into novel and recent trends in different areas of pharmaceutical sciences. This would enable the faculty to gain technical expertise. This FDP will provide a forum to discuss emerging issues and advances in the pharmaceutical field.

OBJECTIVE OF THE PROGRAM:

The objective of this FDP is to provide a medium for ;

- Acquaint faculty with the latest developments in pharmaceutical research
- Strengthen research expertise via exchange if ideas
- To create a bridge between academia and industry

The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

The aim of FDP is to bring the faculty fraternity and scientific community into the one umbrella and explore the importance of pharmacy education in academics, research industry and drug control aspects so as to improve the overall healthcare system across the world. This faculty development program is an effort to enlighten the participants on research ethics and malpractice. This program has an overview on how to up bring an original research work and to understand the core principle of ethical research. Thereby the participant would strive to become an ethical researcher and produce an original quality research work. If we have a quality research outcome, then it might lead to further improvements in the society, directly or indirectly.

OBJECTIVE OF THE PROGRAM:

Objective of this program to Participants would able to understand the

- Issues covered in research ethics
- Differing ethical dilemmas and responsibilities of researchers, sponsors, and research assistants
- Role of ethical codes

OUTCOME OF THE PROGRAM:

.Identify the frameworks of ethics for biomedical research and apply the basic principles drawn from these frameworks in a given research content

- Recognize the perilous outcome of the research where ethics are compromised

The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

The aim of FDP is to bring the faculty fraternity and scientific community into the one umbrella and explore the importance of pharmacy education in academics, research industry and drug control aspects so as to improve the overall healthcare system across the world.

Analytical techniques are utilized to generate results about characteristics of phytochemicals. It may be utilized as the basis for decision related to administering the drug to patients. This FDP provide effective to participants to learn various analytical method validation required during drug development and manufacturing of pharmaceutical products.

OBJECTIVE OF THE PROGRAM:

The main objective of this program is to know about

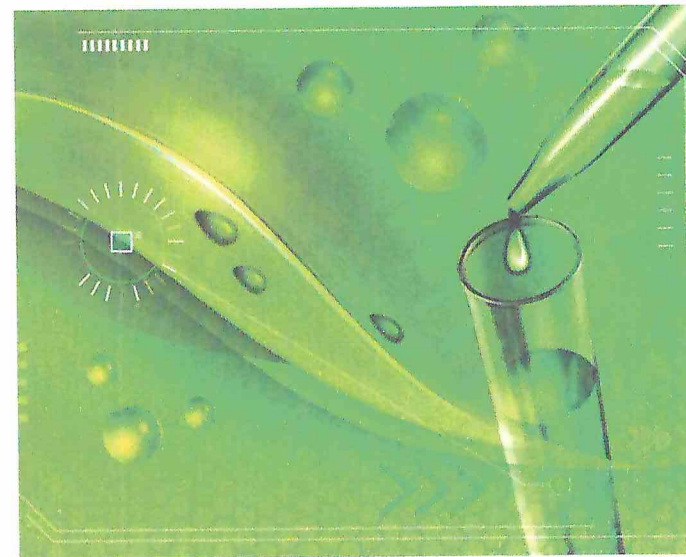

- Quantity and quality of pharmaceutical, Phytochemical to improve the patents health.
- Modern techniques and analysis for Phytochemicals investigation.

- Objective of the Program** : The main objective of this program is to know about
- Quantity and quality of pharmaceutical, phytochemical to improve the patients health.
 - Modern techniques and analysis for phytochemicals investigation.
- Topics Covered** : 1. Analytical procedures and methods validation for drugs and biologics guidance for industry.
2. Medicinal plants and its pharmacological values
3. General techniques involved in phytochemical analysis
- Outcome of the Program** : We collected open feedback from the faculty members; from this program, the participants were able to know
- Explore about the various analytical methods to evaluate pharmaceutical and phytochemical products.
 - Perform the qualitative and quantitative tests of biological active compounds.
- Number of Participants** : 26

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT MDP

The growth of a student would be complete when the surrounding facilitators both in academic, practical and administration all contribute in the development of the student and make him more successful so not only the teaching, non-teaching staff also has important role to play. The need for comprehensive education is growing more and more and demand for quality education is becoming irrefutable. The partners of education industry not only the teaching faculty but also the supporting staff in both administration and lab purposes is becoming a must and development oriented with it. From our experience we observe that only teaching staff or the faculty alone get some training inputs, but there is a definite lack of training for the non-teaching staff, Administrative Staff and Technicians, this can result in the imbalance in the students growth, so it is recommended that for the best values that the college or Institution can get only when the training is ensured for both teaching and nonteaching staff.

OBJECTIVE OF THE PROGRAM:

- Communication
- Team work
- Problem solving
- Adaptability
- Independence
- Time management
- Interpersonal skills

OUTCOME OF THE PROGRAM:

Upon completion of this program, participants could be able to build their

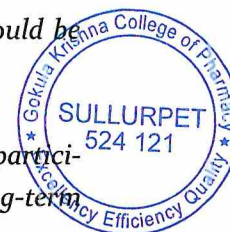

- Technical expertise,
- Development of soft skills can ultimately set participants apart in the workplace and lead to long-term success.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

Faculty development is essential for renewing and assisting faculty to maintain teaching effectiveness and adapt to innovations. This FDP empowers the participants in the domain of analysis. This would enable the participants to gain knowledge of instrumental methods for the analysis of herbal drugs. Quality control of herbal crude drugs and their constituents is of great importance in modern system of medicine. Standardization assures that product is reliable in terms of quality, efficacy, performance and safety. So, this program may enhance the knowledge of participants in the field of assessing the quality of herbal drugs.

Gold Medal 2014-15

OBJECTIVE OF THE PROGRAM:

•The important object of this program is to know about Some modern analytical techniques for the analysis of the herbal drugs are very much essential for global acceptance of Ayurveda and traditional herbs.

OUTCOME OF THE PROGRAM:

- Narrate about various evaluation methods for herbal drugs.
- Handle analytical technique instrumental for the analysis of the herbal drugs.

ABOUT FDP

Faculty development is essential for renewing and assisting faculty to maintain teaching effectiveness and adapt to innovations in Health Professions educational institutions. Proper regulatory system ensures the quality, safety and efficacy and standard of medicinal product for sales, importing and manufacturing. Understanding the regulatory scenario is extremely crucial due to the rapid and ongoing changes and due to the burden on the regulatory bodies to ensure a healthy supply of quality drugs at affordable price to the Indian masses. So, this will be a good platform to know.

OBJECTIVE OF THE PROGRAM:

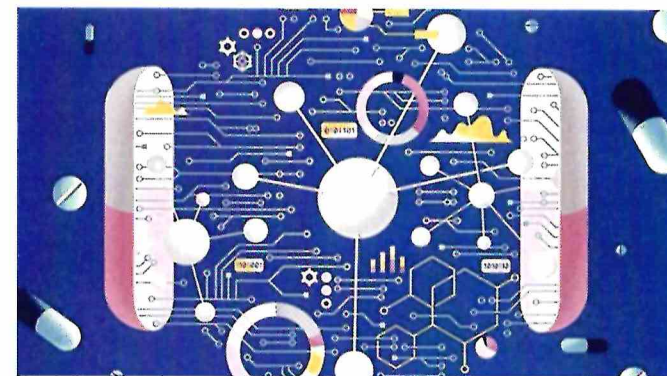

- Development of the drug product
- Development of manufacturing process
- Development of product controls
- Support to the development process

OUTCOME OF THE PROGRAM:

- Participants can able to bring changes in conditions and practices of drug product development, manufacturing process, product control as current trend in pharmaceutical products to develop and revolutionize the health care system
- Participants can describe how these recent trends impact on the role of the regulatory affairs professional.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

AF JUT FDP

The aim of FDP is to bring the faculty fraternity and scientific community into the one umbrella and explore the importance of pharmacy education in academics, research industry and drug control aspects so as to improve the overall healthcare system across the world.

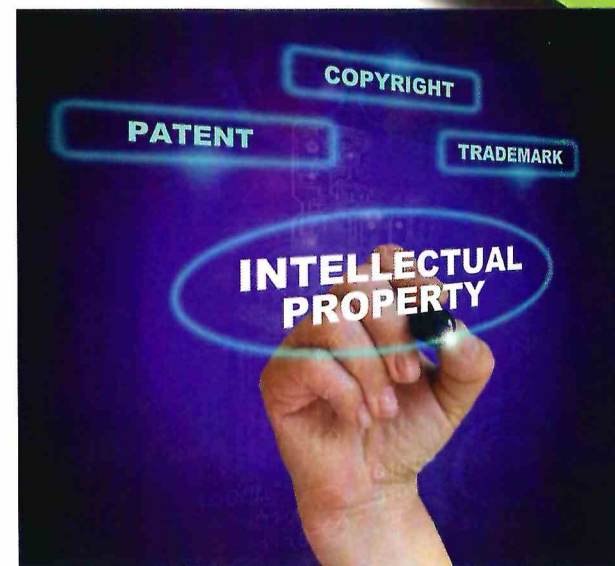

This FDP is designed for the faculty members, lectures who would like to get a sound understanding about writing their research work for peer reviewed national and international journal publications and doctoral dissertations. From this program participants able to know facets of writing, commencing with problem definition to sharing their published work in front of large audience. By using this session the resource persons will share their experience related to journal publication which in tune will benefits the participants to generate high quality research outcome.

OBJECTIVE OF THE PROGRAM:

- To give a brief understanding of the manner, significance, content and structure of a legal report
- Understand the process of report writing
- To provide certain precautions and checklist to the researcher to create a more intensive and accurate research report.

OUTCOME OF THE PROGRAM:

- Describe basic legal research report along with how the report must be made with certain point while doing the research and writing the final report.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT MDP

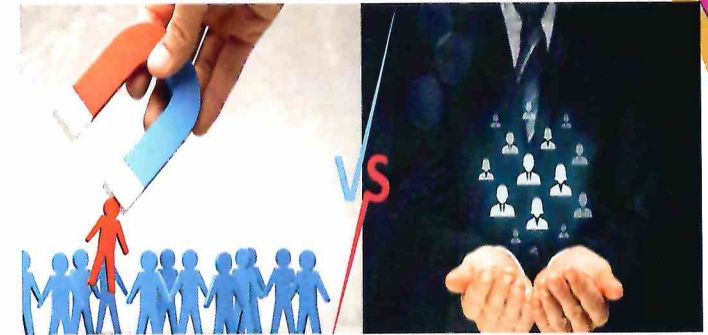

The growth of a student would be complete when the surrounding facilitators both in academic, practical and administration all contribute in the development of the student and make him more successful so not only the teaching, non-teaching staff also has important role to play. The need for comprehensive education is growing more and more and demand for quality education is becoming irrefutable. The partners of education industry not only the teaching faculty but also the supporting staff in both administration and lab purposes is becoming a must and development oriented with it. From our experience we observe that only teaching staff or the faculty alone get some training inputs, but there is a definite lack of training for the non-teaching staff, Administrative Staff and Technicians, this can result in the imbalance in the students growth, so it is recommended that for the best values that the college or Institution can get only when the training is ensured for both teaching and nonteaching staff.

OBJECTIVE OF THE PROGRAM:

- Administrative processes and procedures,
- Financial rules and procedures,
- Establishment rules and procedures.

OUTCOME OF THE PROGRAM:

- Intellectual and skilled development activities in any or all academic, administrative, and non-teaching workers to stay updated,
- To enrich their effective communication,
- To cost-efficient leadership,
- To long-term management availability.

The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

The aim of FDP is to bring the faculty fraternity and scientific community into the one umbrella and explore the importance of pharmacy education in academics, research industry and drug control aspects so as to improve the overall healthcare system across the world.

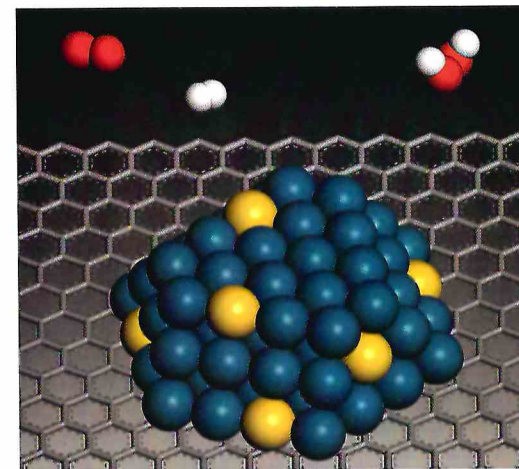

Nanoparticles are materials with overall dimensions in the nanoscale, i.e under 100 nm. In recent years, these materials have emerged as important players in modern medicine, with applications ranging from contrast agents in medical imaging to carriers for gene delivery into individual cells. From this FDP participants gain the knowledge in Nanoparticles have made major contributions to clinical medicine in the area of medical imaging and drug/gene delivery.

OBJECTIVE OF THE PROGRAM:

- Past, present, future challenges in Nanoparticles and applications of Nanoparticles in the treatment of human diseases.
- Contemporary future Nanotechnology applications in the medical field.
- Nanoparticles in medical imaging
- Quantum dots

OUTCOME OF THE PROGRAM:

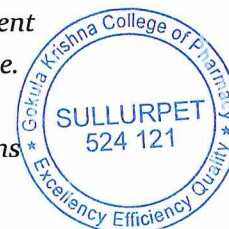

- Improve their research activity in drug development
- Narrate the future challenges in modern medicine.
- Develop methods to synthesize nanomaterial's
- Describe the Nanoparticles-biological interactions

Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

Faculty development is essential for renewing and assisting faculty to maintain teaching effectiveness and adapt to innovations in health professions educational institutions. This FDP mainly focuses on the importance of patents, designs and other intellectual property components to the faculty members. This FDP on importance of IPR, process of filing of patents and how to search patent online.

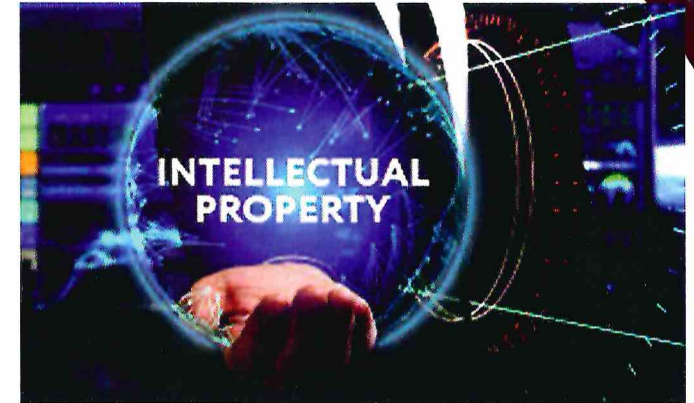

Participants will be elaborated on the various tools and platforms available for searching the patents on online. This will enhance the knowledge and skill of the participants on patents and how to check whether their innovative idea is patentable or not.

OBJECTIVE OF THE PROGRAM:

- To Provide exclusive knowledge on
 - Why should intellectual property be protected
 - How should IPR is protected
 - Patent offices
 - Patent speciation
 - Steps for patent granting system
 - Trade mark application filing up to acceptance
 - Application procedure

OUTCOME OF THE PROGRAM

- Get commercial benefits from their creative efforts or reputation.
- Promote students in the field of research creativity and innovation.
- Enlighten the students to get license for patent in their research work.

COLLEGE OF PHARMACY**

**SULLURUPETA
ANDHRA PRADESH – 524121**

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

The aim of FDP is to bring the faculty fraternity and scientific community into the one umbrella and explore the importance of pharmacy education in academics, research industry and drug control aspects so as to improve the overall healthcare system across the world.

Innovations are the source of human development and improvement of quality of life. Innovation in Pharma is the transformation of the pharmaceutical industry driven by new technology, new business models, or policy decisions that improve therapy and create value for patients and society. This FDP providing huge information about both the innovations in Pharma and health care, from these participants may know about what are all the new innovations are going on in the industry to improve the health of public.

OBJECTIVE OF THE PROGRAM:

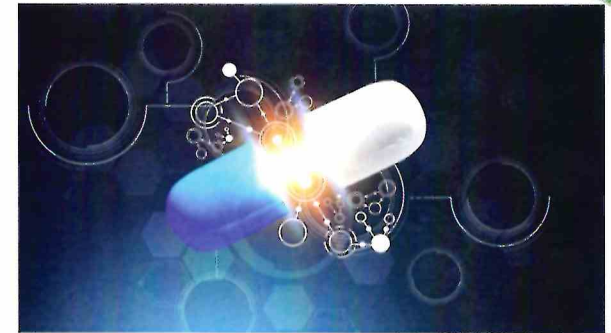

The objective of the FDP on "Exploring Innovations In Pharma And Health Care" is to know about trends and innovations in pharmaceutical industry and development of new production methods.

- It is a good plat form to learn how to treat previously incurable diseases
- Participants will learn about m-Health, e-Health, digital health and personalized medicine

OUTCOME OF THE PROGRAM:

- Describe the benefits of mHealth e-health and digital health interventions, for patients living with chronic diseases.

Participants could able to establish new management systems and mesmeric technology in health care.

Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

The goal of this Faculty development program is to facilitate the development of a conducive environment toward holistic, values based education at institution. And the environment will eventually help prepare the next generation of competent students.

This FDP will train the participants to identify human basic aspirations.

To explore harmony within humane being.

To promote a shared vision with humane education for human society and rest of the nature.

OBJECTIVE OF THE PROGRAM:

- To help the participants, seek the need for developing a holistic perspective of life.
- To sensitize the participants about the scope of individual life, family, society and nature/existence, strengthening self, reflection.
- To develop more confidence, learn and act accordingly.

OUTCOME OF THE PROGRAM:

- The program plays best sources to participants to know about universal human values.
- Get exploring themselves, can enlist their desires
- Adapt to harmony in the nature.
- The participants could able to present sustainable solutions to the problems in society and nature.

COLLEGE OF PHARMACY**

**SULLURUPETA
ANDHRA PRADESH – 524121**

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT MDP

The growth of a student would be complete when the surrounding facilitators both in academic, practical and administration all contribute in the development of the student and make him more successful so not only the teaching, non-teaching staff also has important role to play. The need for comprehensive education is growing more and more and demand for quality education is becoming irrefutable. The partners of education industry not only the teaching faculty but also the supporting staff in both administration and lab purposes is becoming a must and development oriented with it. From our experience we observe that only teaching staff or the faculty alone get some training inputs, but there is a definite lack of training for the non-teaching staff, Administrative Staff and Technicians, this can result in the imbalance in the students growth, so it is recommended that for the best values that the college or Institution can get only when the training is ensured for both teaching and nonteaching staff.

OBJECTIVE OF THE PROGRAM:

The objective of this program is to enhance the administrative abilities of the participants, who are periodically updated so as to enable them to contribute their maximum potential towards the efficient functioning of the institution.

OUTCOME OF THE PROGRAM:

- Develop and implement the strategies for their career goal.
- Maintain institution information safely.
- Keep our reputation clean.
- Enhance critical leadership and management skills.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

The aim of FDP is to bring the faculty fraternity and scientific community into the one umbrella and explore the importance of pharmacy education in academics, research industry and drug control aspects so as to improve the overall healthcare system across the world.

Faculty development program will help to disseminate the knowledge in cutting edge technologies in pharmaceutical sciences.

Participants may know the important of cutting edge technologies as artificial intelligence, block chain, the internet of things and machine learning are expected to support many aspects of marketing. This FDP provides the current state of the art on using cutting edge technologies in marketing illustration by taxonomy.

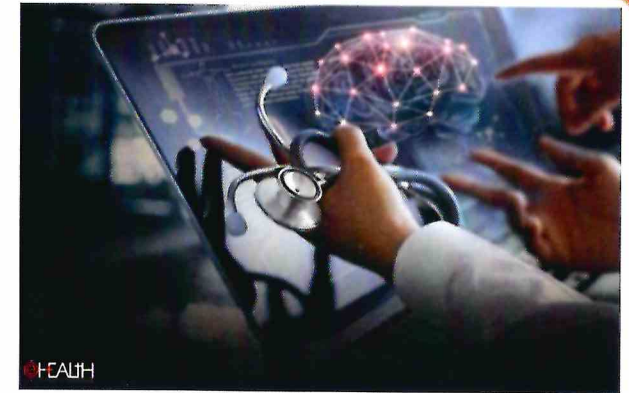

OBJECTIVE OF THE PROGRAM:

- The importance of Cutting edge strategies in pharmaceutical industry.
- How this strategies is using in Pharmacy field
- Bio-MEMS
- Immunological detection devices

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

Faculty development is essential for renewing and assisting faculty to maintain teaching effectiveness and adapt to innovations in health professions educational institutions. The pharmaceutical innovations progress has been transformational; the world continues to face major health threats. A continuous improvement is a philosophy of most pharmaceutical manufacturers as they strive to increase supply, gain, efficiencies and decreases costs. New medicines and vaccines don't fall out of the sky. It is critical that we understand and protect what makes this innovation possible. And also we must protect the innovation ecosystem that makes this journey possible. Because the innovation journey is itself so unpredictable, we need the strong foundations on which to build it

OBJECTIVE OF THE PROGRAM:

- Participants will learn the recent innovations in pharmacy
- Participants would understand, how to identify the errors which are arising in various stages of the drug-use process:

Formulation

Manufacturing

Analyzing

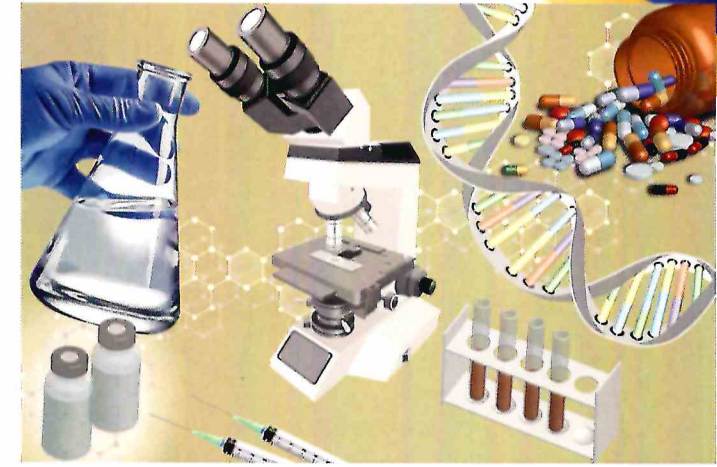

Dispensing

Administration.

OUTCOME OF THE PROGRAM

The participants could be able to

- Create value to society by making it possible to generate improvements in health that were previously unattainable.
- Focus on drug discovery, development, and some techniques of protection strategies.

ANDHRA PRADESH – 524121**

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and societttty. We will provide individual attention world class quality of education and character building.

ABOUT FDP

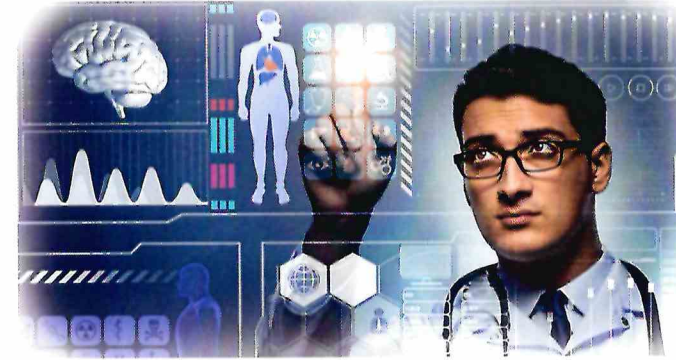

The aim of FDP is to bring the faculty fraternity and scientific community into the one umbrella and explore the importance of pharmacy education in academics, research industry and drug control aspects, so as to improve the overall healthcare system across the world. Pharmaceutical education and research deals with the discovery of vaccines, new chemical entities from various natural sources as maker compounds. Synthesis of new chemical entities in research laboratories. This FDP program will provide an effective platform to learn recent developments in the field of pharmacy profession to budding pharmaceutics, research scholars and faculty fraternity.

OBJECTIVE OF THE PROGRAM:

- Trends in pharmaceutical research.
- Learn the past, present, and future of the Indian system of pharmaceutical education and recent research methodologies

OUTCOME OF THE PROGRAM:

- Describe about the Indian system of pharmacy education
- How to incorporate strategies for good opportunities to get a better future
- Recent advances in pharmaceutical research methodologies.
